The Chairman
Medical Board
Parkway Hospital Singapore Pte Ltd
Singapore

Re: Dharambir Singh Sethi, M.B., B.S., F.R.C.SEd, F.A.M.S(Singapore)

Dear Sir or Madam,

I am pleased and honored to write this letter in strong support of Dr. Sethi's appointment to the Parkway Hospital.

Dr. Sethi is one of the leading figures in the world in otolaryngology head and neck surgery. He is one of the premier international rhinologic and skull base surgeons widely known and highly regarded for his pioneering work in sinus and pituitary surgery. Testimony to this is provided by the fact that he has delivered more than 650 lectures in 170 international meetings. Dr. Sethi has an international reputation and is understood to have performed surgery on leading public figures from a number of countries.

Dr. Sethi has been extensively involved in the education efforts of the American Academy of Otolaryngology – Head and Neck Surgery, having been an instructor and presenter at their annual meeting since 1996. He received the prestigious "Honor Award" from the American Academy at their meeting in San Diego, California in 2002. Dr. Sethi has published two books and is the author of numerous books chapters and peer reviewed articles. He is a member of the Editorial Board of "Rhinology the journal of the European Rhinologic Society" and an international advisor to a number of international societies. He acts as a reviewer for several prestigious international journals based in the United States.

Dr. Sethi's subspecialist surgical training was at what has been consistently ranked as the United States' leading otolaryngology program at John Hopkins University School of Medicine in Baltimore, Maryland. Dr. Sethi has in turn trained a large number of residents and fellows in Singapore and contributed to the training of countless surgeons around the world with his involvement in teaching conferences. He is an honorary member of a number of international otolaryngology societies and

received the "National Day award for Long Service" in Singapore in August of this year.

Dr. Sethi's surgical skills are outstanding – exactly the sort of skills required to run a premier internationally renowned surgical practice. I have had the pleasure of watching Dr. Sethi operate and his technical abilities are indeed something to admire. Even more importantly Dr. Sethi is not just known for his surgical skills but also for his honesty, integrity and the empathetic way in which he treats his patients.

In short, Dr. Sethi enjoys my very highest recommendation for appointment to your hospital. He is truly an outstanding international surgeon and role model in our specialty. Please feel free to contact me if I can provide any further information.

Yours Sincerely,

Scott M. Graham, M.D.
Professor
Director of the Division of Rhinologic Surgery
